THE MODERN PRODUCT FOR THE
MODERN HOME

GAS

Use gas for heating—for cooking—for lighting the home, save labor and dollars. It's economical, clean and safe fuel—the efficient light.

It is in the home that the benefits of gas can be utilized to their greatest extent. Why bother with the old coal or wood stove, and its consequent dirt, waste and drudgery, when a gas range, water heater and gas iron will do the same work in less time, with less effort and at less cost? The Ardmore City Gas Co. is continually directing its efforts toward improving its service, increasing the uses of gas for both fuel and light.

All housekeeping becomes LIGHT housekeeping when gas is used. It is equally economical in the two-room flat or ten-room house.

Only \$1.00 Puts the Hoosier in Your Home While This Allotment Lasts

"Prices must advance" is the official announcement made by the Hoosier Company.

This is due to the increased cost of raw materials used in the Hoosier. Our allotment at the old price is limited—only a few of each pattern are left. These may all be taken any day.

The factory has notified us that 20,000 cabinets were snapped up in three weeks when it first became known that Hoosier prices must be increased. You can judge for yourself how long our small allotment will last.

Your only chance of being sure to get one of these cabinets at the present low prices is to come at once before this allotment is gone.

1. \$1 puts the cabinet you choose in your home.
2. \$1 weekly quickly pays for it.
3. The low cash price fixed by the factory prevails strictly.
4. No interest—no extra fees.
5. This sale is under the direct supervision of the Hoosier Company.
6. Your money back if you are not delighted.
